

AbstractTableModel

TableModel

pack.BDModeloDatosTabla

```
classDiagram
    class AbstractTableModel
    class TableModel
    class packBDModeloDatosTabla["pack.BDModeloDatosTabla"]
    AbstractTableModel <|-- packBDModeloDatosTabla
    TableModel <|-- packBDModeloDatosTabla
```

The diagram illustrates a class hierarchy. At the top, there are two boxes: 'AbstractTableModel' on the left and 'TableModel' on the right. Below these, centered, is a box labeled 'pack.BDModeloDatosTabla'. Two arrows originate from the bottom of the 'pack.BDModeloDatosTabla' box and point upwards to the bottom of the 'AbstractTableModel' and 'TableModel' boxes, indicating that 'pack.BDModeloDatosTabla' inherits from both.
